PROFILE

Aspiring Full Stack Web Developer with an IT background and 5+ years of diverse corporate experience. Passionate about building responsive, user-friendly web apps using HTML, CSS, and JavaScript. Adaptable, detail-oriented, and committed to continuous self-learning in the tech industry.

EDUCATIONAL HISTORY

Bachelor of Science in Information Technology

STI College Baliuag
2013- 2017

Full Stack Web Developer

Uplift Code Camp (Bootcamp)
May 2025- present

PROJECTS

Portfolio Website

HTML, CSS, JavaScript

- Built a mobile-responsive personal portfolio with 5+ sections and smooth navigation
- Used semantic HTML and modular CSS for clarity and scalability
- Integrated GitHub links and project showcases

ScriptureSpeak App

HTML, CSS, JavaScript, REST API

- Developed a scripture reading app that fetches daily verses from a public API.
- Implemented user-friendly UI with React components and state management.
- Enabled bookmarking and sharing of favorite verses

FaceBot App

React, JavaScript, Tailwind CSS

- Implemented React Router for smooth multi-page navigation.
- Handled dynamic UI updates for instant avatar previews.

TECHNICAL SKILLS

Frontend Development

- Proficient in building responsive web apps using **HTML5**, **CSS3**, **JavaScript** (ES6+), **React**, React Router, and **Tailwind** CSS.
- Comfortable using React **state management** and consuming **REST APIs**.
- Implemented layouts using CSS Flexbox and Grid for mobile-first designs.

Backend Development (In Progress)

- Currently learning Node.js, Express.js, REST API design, and MongoDB
- Basic knowledge of server-side scripting and routing concepts

Version Control

- Managed code changes using **Git** and **GitHub/GitLab**
- Performed **peer code reviews** to ensure code quality and consistency.

Additional Skills

- Strong understanding of **DOM** manipulation and event handling through React development.
- Familiar with debugging tools and Chrome DevTools.
- Basic command line usage for development workflows
